Regional Meetings Various Dates and Locations in Texas

The mission of the Texas Alliance for Patient Services is to advance the professional development of patient representatives and related patient service professionals by promoting the improvement of patient care and the extension of adequate health care services for all persons. This is fulfilled not only at the Annual Conference, but also at short regional meetings held at various locations around the state of Texas throughout the year.

These events are from two to five hours in length with an expectation of 30-75 members and non-members in attendance. Lunch, refreshments and door prizes are provided in addition to the educational component of the meeting to attract attendees. The sponsor of each regional meeting is given maximum exposure and recognition during the day.

Healthcare Institution Sponsor Opportunities

TAPS support by our healthcare institutions is paramount to the success of our mission and educational programs. These educational offerings help to assure that patients, their families and staff are supported by well informed patient representatives. Conference updates include presentations from experts in the fields of healthcare legislation, customer service and effective conflict resolution, as well as other areas of best practices for patient and guest services. We welcome your generous contribution to help support our Annual Conference, regional meetings and year-round operations. Healthcare Institution sponsors will receive appropriate acknowledgement for their support.
